# 5 Techniques to Win your Next Promotion

## **1. Break Projects into Activities for achieving deadlines**

Break down your projects into activities so that time can be allotted to each activity to ensure concentration and complete work on time.

## **2. Read on Your Organization Vision & Project Goals**

Reading on your organization will give you an idea on your career path and if your values match the organization.

## **3. Be Proactive in taking ownership and Responsibility**

By being proactive you are taking the first step towards Leadership roles and laying stepping stones to your future growth.

## **4. Learn how to socialize and build Network within the Organisation**

Build relationships, create a conducive environment for career growth and camaraderie.

## **5. Invest in your Soft skills!**

Just Technical knowledge is not enough to grow into a Leadership position. For a growing career trajectory it is important to build up on your soft skills through training from a reputable organization.
